to glue

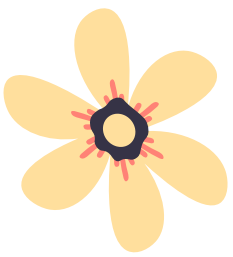

to paint

# Let's get it started!

## You need:

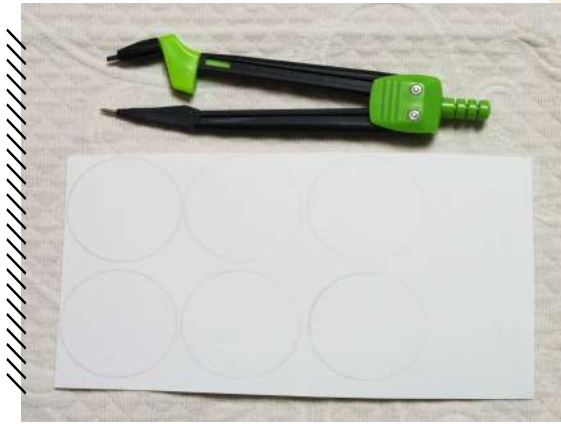

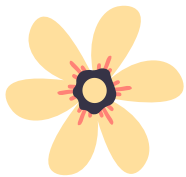

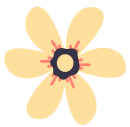

## Step 1 : Draw and cut the shapes

Cut up an empty egg carton. Use one section per ladybug.

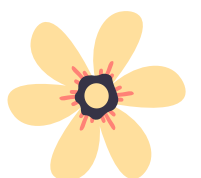

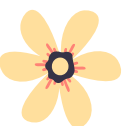

Using a compass, draw circles on the construction paper and cut them out.

## Step 2 : Paint the egg carton and the circles

Paint the egg carton and the circles in red.

### Step 3 : Add dots and split the wings.

Paint the front of the egg carton section black to create the head of the ladybug.

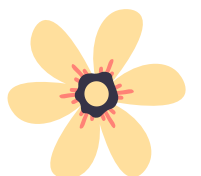

Draw black dots on the red circles.  
Then, cut the paper circles in half to make two wings.

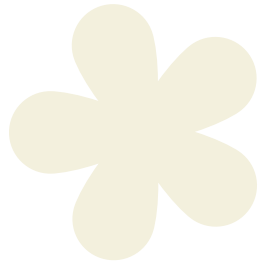

### Step 4 : Glue the ladybug's eyes and wings.

Glue googly eyes on the front of your egg carton.  
Then, glue the wings on top of your egg carton.

There you go!
